INDEX

S.NO	NAME OF PRACTICAL	SUBMISSION DATE	REMARK
1.	Design a Professional Resume using Templates.	22-09-2025	
2.	Create a Career Oriented Presentation with 7 slides using Transitions and Animations.	29-09-2025	
3.	Create a social media poster for "DIGITAL AWARENESS WEEK" using Canva.	01-10-2025	
4.	Compose & send a professional email with an attachment as "you are applying for an internship, send email to HR with your resume attached".	06-10-2025	
5.	Design a complete Google Form survey and analyze responses. a)Create a Google Form titled "Student Attendance Report". b)Include the following question types: a. 5 MCQs b. 1 Rating scale (1–5) c. 1 Short answer d. 1 Checkbox question c)Customize the theme (header image + color). d)Share the form link with 5 friends and collect responses.	11-10-2025	

	e)Generate charts from responses and take screenshots of the analysis page.		
6.	Demonstrate the creation and management of your digital identity. a)Create a social media profile (LinkedIn preferred). b)Add a profile photo, short bio, skills, and education details. c)Create a simple post about “My Learning Journey in Digital Literacy.” d)Change your privacy settings to: a. Who can see your posts. b. Who can message you	31-10-2025	
7.	Using Google Drive or OneDrive: a)Create a new folder named “Unit 3 Practical Work”. b)Upload 3 different files (PDF, image, document). c)Organize them in subfolders: Notes, Images, Assignments. d)Share the main folder with your teacher with View Only permission.	13-11-2025	
8.	Identify one real phishing email : A final-year student, Aman, receives a LinkedIn message saying: “You are shortlisted for a Remote Software Developer role at Google. Salary: ₹18 LPA. Pay ₹2,499 as verification fee. Limited seats. Pay now to confirm.”	19-11-2025	

	<u>ANSWER THE QUESTIONS :-</u> a)What type of cybercrime is happening here? b)List 3 red flags that show it is a scam? c)What should he do to verify if a job offer is real?		
9.	Create a Google Form Quiz with the following requirements: a)Convert the form into a Quiz mode with automatic grading. b)Add 5 MCQ questions, each carrying 2 marks. c)Add 1 short answer question that requires manual evaluation. a. Turn ON the setting: b. <i>Limit to 1 response</i> c. <i>Shuffle question order</i> d. <i>Release marks after manual review</i> e)Add a timer add-on (like form presenter) and set up a 10-minute time limit. f)Finally, send the quiz link and view the response summary.	24-11-2025	
10.	Ask ChatGPT OR Google Gemini to generate a 100–120 word paragraph on: “Is online learning better than offline learning for college students?” a)Run the AI-generated text through Grammarly and any plagiarism-check tool.	29-11-2025	

	b)Now manually search online to check if similar sentences exist on blogs or articles. c)Identify 2–3 biased statements in the AI answer, such as: i. Over-generalizations ii. One-sided opinions iii. Unproven claims d)Rewrite the entire paragraph in a neutral and balanced way, using AI only for grammar suggestions. e)Submit 3 screenshots: i. Plagiarism check result ii. Grammarly suggestion page iii. Original AI paragraph vs your rewritten unbiased version		
11.	To compare AI-generated content with student-created content and understand limitations of AI. a)Write a 100–150 word paragraph on the topic: “Will AI replace jobs or change them?” (This must be written by the student.) b)Ask any AI tool (ChatGPT/Gemini/Copilot) to write the same topic. c)In your practical copy, create a Comparison Table with the headings: i. Human-Generated Content ii. AI-Generated Content	03-12-2025	
12.	Create a new NotebookLM project titled: “My Chapter Revision Notes.”	10-12-2025	

	a) Upload multiple sources (any 2) such as: i. PDF notes ii. Web articles iii. Text copied into NotebookLM b) Ask NotebookLM to: i. Create a combined study guide using all sources. ii. Generate flashcards for quick revision. iii. Create a concept map or explanation of the topic. c) Manually check for: i. Any incorrect facts ii. Repeated information iii. Missing important points d) Attach 3 screenshots from NotebookLM: i. Combined study guide ii. Flashcards iii. Concept map / explanation		
13.	Create a complete Student Result Management workbook. a) Create a new workbook with 3 sheets renamed as: a. <i>Student_Data</i> b. <i>Marks_Analysis</i> c. <i>Charts</i> b) In <i>Student_Data</i>, enter a list of 15 students with: Name, Roll No, Class, City, Subject1, Subject2, Subject3. c) Use Flash Fill to split "Full Name" into "First Name" and "Last Name". d) Use Find & Replace to replace city name "Delhii" with correct "Delhi".	19-12-2025	

	e) Use IF function to calculate Pass/Fail (Pass = total $\geq$ 120). f) Use COUNTIF to find how many students belong to "Delhi". g) Use AVERAGE, MAX, MIN to analyze marks in the <i>Marks_Analysis</i> sheet. h) On the <i>Charts</i> sheet, create: i. A Bar Chart showing marks of any one subject. ii. A Pie Chart showing percentage of pass vs fail. i) Apply Conditional Formatting to highlight marks < 40 in red. j) Convert the table into a formatted Excel Table.		
14.	Build a workbook for managing and analyzing sales data of a small store. a) Create a workbook with sheets: i. Store_Sales ii. Summary iii. Charts b) Import a CSV sales file (or create a sample table) containing: Date, Product, Category, Quantity, Price, Total Sales. c) Use Sort (A→Z, Z→A) to organize products by name and category. d) Apply Filter to view only "Electronics" category. e) Use SUMIF to find total sales for a selected product (e.g., "Headphones"). f) Use LEFT, RIGHT, MID to extract: i. First 3 letters of the product name ii. Last 2 letters of the category	24-12-2025	

	g) Find the highest and lowest sales value using MAX/MIN. h) Prepare a monthly sales summary in the <i>Summary</i> sheet using AVERAGE & SUM. i) Create a Line Chart of month-wise total sales in the <i>Charts</i> sheet. h) Apply sheet protection so data cannot be edited accidentally.		
15.	Create a complete personal financial planner workbook. a) Create and rename sheets as: - Expenses - Budget - Charts b) Enter at least 20 rows of expense data: Date, Category, Expense Detail, Amount, Payment Method. c) Use Data Validation dropdown to create a category list (Food, Travel, Fees, Shopping, Other). d) Use Remove Duplicates on the Category column if repeated incorrectly. e) Use SUMIF to calculate total spending for each category. f) In the <i>Budget</i> sheet, create the monthly budget and compare with actual expenses using: Difference = Budget – Actual (formula required) g) Highlight expenses above ₹2000 using Conditional Formatting. h) Create: - A Pie Chart showing category-wise spending	29-12-2025	

	ii. A Bar Chart comparing <i>Budget vs Actual</i> iii. Use Flash Fill to separate date into Day / Month / Year if needed. Also explain its detail iv. Save worksheet in Page Layout view and adjust print area.

PRACTICAL-6

Aim-Create digital identity – LinkedIn

The screenshot shows a LinkedIn profile for Rudransh Kumar. The header features a blue banner with the text "COMPUTER SCIENCE & ENGINEERING" and a circular profile picture of a man with a beard. Below the banner, the name "Rudransh Kumar" is displayed with a verification badge. The bio states he is a student at Rungta College of Engineering & Technology, Kohka-Kurud Bhilai, Gaya, Bihar, India. The profile shows 21 connections and several action buttons like "Open to", "Add profile section", "Enhance profile", and "Resources". On the right sidebar, there are sections for "Profile language" (English), "Public profile & URL", a "Hyundai Motor Group" promotion, and "Who your viewers also viewed". A pop-up window asks "Which industry do you work in?" with a hint that adding an industry can increase profile views.

About

An aspiring Cse student at rungta international skills University, learner for Html5, CSS and javascript ready to take power of digital in own hand to empower the generation.

The screenshot shows a LinkedIn post by Rudransh Kumar. The post text reads: "That's another remarks from an unmatched name 'Tata' not a company emotions of millions. The first thing from my mind after seeing this is I am something better than nothing". The post includes a "Certificate of Participation" from the TATA CRUCIBLE Campus Quiz 2025, awarded to Rudransh Kumar from Rungta College of Engineering & Technology. The post has reactions from Suhail Akhtar and 6 others, and a bar shows reactions like "Like", "Comment", and "Repost". The post also displays "145 impressions" and a "View analytics" link.

PRATICAL – 7

Aim- To upload and organize files and cloud storage

PRACTICAL- 8

Aim-To identify phishing attempts through digital messages

**“You are shortlisted for a Remote Software Developer role at Google.
Salary: ₹18 LPA.
Pay ₹2,499 as verification fee.
Limited seats. Pay now to confirm.”**

ANSWER THE QUESTIONS :-

a. What type of cybercrime is happening here?

Ans- This is a type of Phishing or Job Scam.

- It is called Phishing because the scammer is impersonating a reputable company (Google) to "lure" Aman into providing sensitive information (money/bank details).
- Specifically, it is an Employment/Job Scam, aimed at defrauding money by offering the false promise of a job.

b. List 3 red flags that show it is a scam?

Ans-The following 3 points clearly indicate that this message is a scam:

1. **Demand for a Verification Fee:** No legitimate and large company (like Google) ever asks candidates for a "verification fee", security deposit, or processing fee to secure a job offer, especially in the initial stages. This is the biggest red flag.
2. **Overly Attractive, Vague Offer:** An attractive salary of ₹18 LPA is offered, but this offer is made without any formal interview or selection process. Reputable companies, especially Google, do not extend final offers without a rigorous, multi-stage interview process.
3. **Urgency for Immediate Payment ('Limited Seats', 'Pay Now'):** Scammers often use phrases like "limited seats" or "pay immediately" to create pressure and prevent the victim from thinking clearly. This is a common phishing tactic.

c. What should he do to verify if a job offer is real?

Ans-Aman should take these steps to verify the job offer:

- **Check Google's Official Website:** Aman should go directly to Google Careers (Google's official career website) and see if the position (Remote Software Developer) is listed there. If it were a genuine position, it would always be found on Google's own website.
- **Use Official Contact Information:** Instead of replying to the LinkedIn message, he should contact Google's Recruiting department through the email or contact form provided on Google's official website and inquire about this offer.
- **Check the Source of the Message:** On LinkedIn, he should check if the profile of the person sending the message is that of a genuine Google employee. He should examine that person's profile to see if they actually work at Google and if their profile looks suspicious (e.g., recently created, very few connections, etc.).

PRATICAL-9

Aim-To create a quiz with automatic grading and time limit

Digital Literacy Quiz

B *I* U  

Welcome to an interesting and informational Quiz where
you will learn everything about digital platform . I can Make sure That you will never regret

1. Which of the following is the strongest password?

- ☐ password123
- ☐ John2020
- ☐ L@k3!F0x#92
- ☐ qwerty

Online learning and offline learning each have their own strengths, and deciding which one is better often depends on what students need and prefer. Online classes give students the freedom to study at their own pace and from any location, which is especially helpful for those with busy schedules. On the other hand, offline learning offers a traditional classroom environment where students can interact directly with teachers and classmates, making discussions and group activities easier. Some subjects are also better taught in person, particularly those that require hands-on practice or access to special equipment. Because of these factors, both online and offline learning can be effective, but their success depends on how well they match a student's learning style and academic goals.

Online learning and offline learning each offer unique benefits, so whether one is better for college students depends on individual needs and circumstances. Online learning provides flexibility, allowing students to study from anywhere and manage coursework around jobs or personal responsibilities. It also offers access to a wide range of courses and digital resources that can enhance understanding. However, offline learning creates a more structured environment, encourages face-to-face interaction, and supports stronger communication with professors and peers. It is especially effective for hands-on or lab-based subjects that require physical participation. Therefore, neither format is universally better; the best choice depends on a student's learning style, motivation level, and the type of course they are taking.

PRACTICAL-11

Aim:- To compare AI-generated content with student-created content

MY CONTENT:-

AI will definitely change the job market, but it won't replace *all* jobs. Instead, it will automate repetitive tasks and push many roles to evolve. Some jobs may disappear, but new opportunities will also be created—especially in fields that require creativity, problem-solving, emotional intelligence, or human judgment. The key is to adapt, learn new skills, and work alongside AI rather than fear it. AI is a tool, not a total replacement for human capability.

AI GENERATED Content :- AI is unlikely to fully replace all jobs, but it will fundamentally transform nearly every sector by automating repetitive and rule-based tasks, leading to significant shifts in required skills. While AI will displace some roles, it is simultaneously creating a vast number of new, specialized jobs in fields like AI development, data science, and ethics. The future workplace will demand human workers to focus on tasks requiring creativity, complex problem-solving, emotional intelligence, and interpersonal interaction, viewing AI as a powerful collaborative tool that augments, rather than eliminates, human capabilities.

CAREER DEVELOPMENT

UNLOCK YOUR TRUE POTENTIAL TO ACHIEVE AND CREATE BRIGHT
FUTURE OF YOUR CAREER

Presented by Rudransh kumar
Erp id-11221

WHAT IS CAREER DEVELOPMENT

- A lifelong process of learning, growing, and making informed career choices
- Helps individuals align skills, interests, values and goals with opportunities
- Involves continuous planning, skill enhancement, and adaptability
- A deep & immersive journey
- Unlock Your potential
- Shape your future
- Build a meaningful career

IMPORTANCE OF CAREER DEVELOPMENT

- Increases self awareness and confidence
- Helps achieve long term professional satisfaction
- Enhances employability and career stability
- Promotes skill growth aligned with industry needs

STAGES OF CAREER DEVELOPMENT

- 1. Self-assessment
- 2. Exploration of opportunities
- 3. Decision making
- 4. Career planning and goal setting
- 5. Skill Development
- 6. Action and Implementation
- 7. Evaluation and continuous Growth

SELF-ASSESSMENT

- Identify skills, strengths and weakness
- Understand interests, personality, and work preferences
- Tools: SWOT analysis, Personality tests, skill mapping
- Identify your vision
- Stay committed to path you have chosen

EXPLORING CAREER OPTIONS

- Research various industries and job roles
- Understand required skills, qualifications, and growth patterns
- Explore internships, certifications and apprenticeships
- Attend workshops Training programmes
- Follow industry trends & technological updates
- Pursue higher education or specialized courses

DECISION MAKING

- Compare opportunities with your strengths and goals
- Evaluate industry trends, job security, and earning potential
- Seek guidance from mentors or career counsellors

CAREER GOAL SETTING

- Short term-goals:
 - Achieve Certifications
 - Improve specific skills
 - Gain initial work Experience
- Long Term Experience:
 - Secure leadership roles
 - Build expertise in chosen field
 - Attain financial stability
 - Use the smart framework for stability

EXPERIENCE

SIH(Smart India Hackathon 2025)

- experienced an interactive & learning Environment where new ideas meet & create a digital era
- Interaction with experts in that field which is so much beneficial for tech career

RUDRANSH KUMAR

CSE STUDENT

ABOUT ME

I am 1st year engineering student at Rungta International Skills University. I am a basic web developer have some knowledge about HTML, CSS & Javascript. I am also a C programmer have knowledge in C programming (loops, functions, pointers..etc). I am learning and nourishing my skills day by day to make me Tech ready.

SKILL

- Basic web Development skills
- proper knowledge of HTML, CSS, Javascript
- Learner in C programmes
- communication skills (reading, speaking, listening)

GDG DEVFEST 2025

- explored a new environment which is full of learnings, information etc
- Meet with tech Giants in their field which gave lots of experience to be earned
- got some memories from this beautiful event

EDUCATION

BRITISH ENGLISH SCHOOL

- Senior secondary schooling (upto class XII)
- Percentage-61.4%
- 2023-2025

RUNGTA INTERNATIONAL SKILLS UNIVERSITY

- Bachelor of technology in computer science engineering.
- 2025-2029
